

## Environmental Games

### Flower Pressing.

Take a couple of phones books, two sheets of tissue paper and a few small flowers such as daisies or pansies. Big flowers such as roses will not work, as they cannot be pressed.

- Take a small flower; put it between the sheets of tissue and in between the pages of one phone book.
- Put phone book on top of the other.
- Leave for a few days and when you have a collection of these flowers, you can make pictures out of them
